

Communication

Date	04 July 2026
Team ID	XXXXXX
Project Name	Credit Card Approval Prediction
Maximum Marks	1 Mark

Communication Plan:

Effective communication is essential for a successful project demonstration. This document outlines the communication strategy used within the team and with stakeholders throughout the Credit Card Approval Prediction project lifecycle, including how updates, issues, and feedback were managed.

S. No	Communication Type	Frequency	Channel / Tool	Participants	Purpose
1	Team Standup	Daily	Google Meet / WhatsApp	All team members	Sync on daily progress and blockers
2	Progress Update	Weekly	Email / MS Teams	Team + Mentor	Share weekly progress report and next steps
3	Issue / Bug Discussion	As Needed	Slack / WhatsApp	Team members involved	Resolve technical issues (e.g. Flask errors, model bugs) quickly
4	Stakeholder Review	Bi-Weekly	Zoom / Google Meet	Team + Project Mentor	Review model accuracy, UI progress, and gather feedback
5	Final Demo Rehearsal	Once	In-person / Zoom	Entire team	Rehearse the final project demonstration before presentation
6	Documentation Review	Once (pre-submission)	Google Docs / Email	Team members	Review and finalize project documentation before submission

Communication Challenges & Resolutions:

S. No	Challenge Faced	Resolution / Action Taken
1	Feature order mismatch when connecting the Flask app to the saved credit_card_model.pkl, causing incorrect predictions.	Debugged the input pipeline, aligned form field order with the model's expected feature order, and added try/except error handling in app.py.
2	Team members were spread across different schedules, which delayed quick decision-making during development.	Set a fixed daily standup time and used WhatsApp for asynchronous quick updates between meetings.
3	Disagreement on the frontend look and feel (minimal	Held a dedicated design review call and agreed on a simple

	form vs. richer dashboard style) slowed down UI finalization.	card-based layout with clear Approved/Rejected result states.
